# Engineering Efficiency. Discover the benefits of DealerChoice.

## Web-based Application

- Access your project information from anywhere
- Perform system upgrades from a single location
- Eliminate the need for any additional hardware

## Seamless Workflow

- Guides users intuitively through the proposal process
- Facilitates interdepartmental communication
- Improves organization by linking all project information to a proposal
- Integrated fax and email terminal allows users to place orders and send documents from within the software

## Powerful Functionality

- Automates customer and vendor discounting
- Proofreads each proposal, identifying missed fees, incorrect discounting and other errors
- Generates powerful, customizable reports that help manage current projects, analyze progress and forecast sales
- Stores key charts, drawings, photographs and any other documents pertaining to your proposal in a file vault
- Comprehensive accounting system builds and maintains information in real-time without the need for posting
- Control user permissions and company settings easily through one centralized tool

## Cost Effective

- Minimal initial investment
- Reduced IT costs
- Simple and flexible licensing
- Unlimited customer support at no additional charge
- Decrease costs and help the environment by limiting use of paper, ink and postage
